MAZE ANABOLIC AMINO ACID FORMULA

Maze Premium Aminos will solve the mystery of muscle gains like no other! Now You can Grow All DAY

The perfect blend of Essential Amino Acids and extra innovative components suitable for use pre, intra, and post workouts to bring an edge to your muscles. contains 100% pharmaceutical grade leucic acid, also known as alpha-hydroxy-isocaproic acid (HICA.) It's a natural metabolite of the branched chain amino acid, leucine.

Branched-chain amino acids (BCAAs) supplements are signaling Muscle protein Synthesis but no Growth is complete without the presence of all the 9 Essential Amino acids (EAAs) that your body needs and can't make on its own.

Maze is not only loaded with all the Essential Amino acids but also it contains HICA, which is promoting the anabolic Environment by reducing DOMS (delayed on set muscle soreness) also it can raise IGF1 levels Also its mechanism of action has been suggested as Independent mTOR signal Transducer causing more muscle protein Synthesis (Anabolism).

Directions of use: As a dietary supplement, mix one scoop Maze into 500ml of cold water and sip throughout each training session of the day. Maze can be consumed before training, between meals, while training, and as post workout to boost your amino acid intake. Modo de Utlização: tomar uma dose (15 gramas) com 500 ml de àgua e beba durante o treino. Maze tambem pode ser consumido, antes, durante e depois do treino. tambem entre refeições.
